English — Fluent

✦ Professional summary

GRCP-certified (OCEG, 2026) and Certified Performance Management Professional (KPI Institute) with three years' consulting experience in PMO governance, action tracking and executive reporting across government and commercial engagements. Experienced in designing risk assessment and risk management frameworks, tracking actions against owners and deadlines through to closure, assessing processes to surface gaps, and turning data into clear reporting for senior leadership. Bilingual (Arabic/English) and ready to help boards and organisations strengthen accountability, manage risk and monitor performance.

✦ Work history

09/2023 – Current
Maven Insights | Riyadh, Saudi Arabia
Consulting Associate

- Designed risk assessment and risk management frameworks and strategies for public and private sector clients
- Supported PMO governance across client engagements: tracked actions against owners and deadlines and followed up to closure
- Assessed processes to identify gaps and overlaps, feeding into recommendations for stakeholders
- Prepared reports and presentations for senior leadership across government and commercial engagements
- Maintained accurate project documentation, trackers and reporting records to keep engagements traceable
- Automated reporting workflows in Excel, reducing manual effort and errors
- Supported market research, benchmarking and business development for new opportunities

07/2023 – 08/2023
SABIC | Riyadh, Saudi Arabia
Summer Camp Trainer

- Designed and delivered technical training sessions

03/2023 – 06/2023
Saudi Aramco | Dhahran, Saudi Arabia
Process Automation Analyst Intern

- Analyzed processes to identify inefficiencies and automation opportunities
- Developed standardized documentation and assessment guidelines
- Used advanced Excel to streamline reporting and data handling
